

ARTE DIGITAL

Rogério Viana

Os trabalhos apresentados neste Catálogo são criações de Rogério Viana a partir de fotografias que ele tem realizado ao longo dos últimos 10 anos aqui em Curitiba. O autor é jornalista e trabalhou como diretor de criação em agências de publicidade no interior de São Paulo, foi fotógrafo e editor de jornais, revistas e livros em São Paulo, Paraná, Bahia e Brasília.

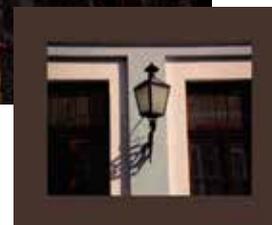

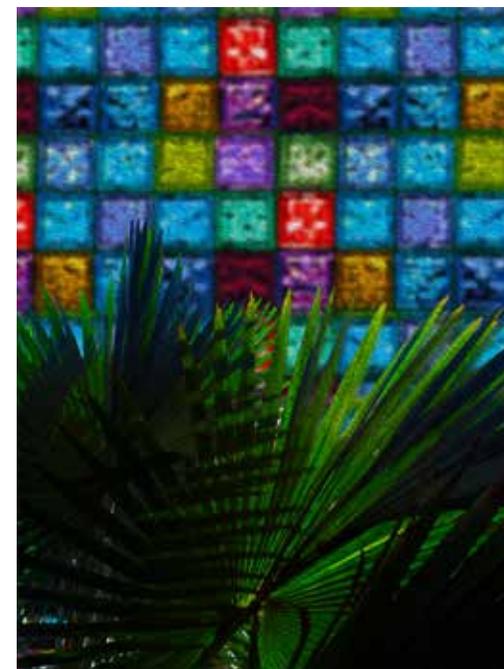

As artes resultantes do trabalho de edição das imagens captadas digitalmente podem ser impressas em diversas mídias - papéis fine-art de texturas, cores e gramaturas variadas, tecido canvas de gramaturas e texturas diferentes, lonas plásticas e laminados adesivos para aplicação direta como papel de parede.

Os trabalhos são executados por estúdios de impressão digital com uso de equipamento de última geração para oferecer máxima qualidade e padrão Museum.

O autor desenvolve, também, mediante pedido, temas diversos para atender ao gosto e interesse de designers de interiores, arquitetos e clientes.
